

T71561 ABS Proportioning Valve Depressor

- **Installs** of front disc brake calipers
- For GM utility vehicles and trucks with "Kesley Hayes" anti-lock brake systems
- Also works on RWAL systems

T71578 Brake Adjustment Tool

- **Quickly** vehicles
- Chrome plated finish resists corrosion
- Offset angle designed to reach confined areas

T71581 Brake Spoon - 7"

- **Allows**
- Chrome plated finish resists corrosion
- Double-ended spoon tips reach hard-to-reach areas

T71584 Brake Spoon - 9"

- **Allows**
- Chrome plated finish resists corrosion
- Offset angle ends provide leverage in confined areas

T71600 Brake Bleeder Wrench 5/16" x 3/8"

- **Drop**
- Bleeds air from brake cylinders by loosening brake bleeder screws
- Double-ended offset design to reach confined areas

T71605 Brake Spring Tool

- **Remov** brakes
- Offset design for extra maneuverability

T71601 Brake Bleeder Wrench 1/4" x 3/8"
T71606 Brake Spring Tool

- **Easily**
- Special heat-treated tip fits over post. When turned clockwise, tool lifts spring hook easily removing it from the post
- Large handle for positive grip

T71607 Brake Spring Tool

- **Remov** brakes
- Can also be used on domestic car brakes that do not use anchor pins

T71609 Brake Spring Compressor

- Remove
- 5/8" to 7/8" in diameter

T71610 Brake Spring Compressor

- Remove
- 5/8" to 11/16" in diameter
- Fits late model compact cars and light trucks

T71622 Brake Spring Compressor

- Remove
- Zinc plated to resist corrosion

T71604 Park Brake Spring Compressor

- Simplify
- cars and trucks
- Slotted plier ends compress cable spring for fast & easy replacement of the brake shoe arm to the cable; fits between cable and spring for emergency brake lever installation

T71611 Brake Spring Pliers

- Remove
- Chrome plated finish resists corrosion
- Double-ended design

T71614 Brake Spring pliers

- Remove
- Works on drum brakes of domestic and imported vehicles
- Handle provides socket-type spring remover and hook-end replacer

T71612 HD Truck Brake Spring Plier & Claw

- Efficient
- brake shoe return springs on trucks and trailers
- 26" long, robust handles deliver powerful leverage
- Services hydraulic, wedge type, and "S" cam air brakes; 10" jaw opening fits the widest brake shoes

T71633 3/8" GM Disc Brake Caliper Wrench

- Alloy s
- Removes and installs brake caliper mounting bolts on cars
- 3/8" type hex wrench

T71634 8mm Disc Brake Caliper Wrench

T71880 Fluid Hose Clamp

- Partially disassembles brake lines and vacuum lines
- Quick installation with minimum loss of fluid
- Adjustable locking collar

T71652 Bleed-O-Matic Brake bleeder

- Allows for easy bleeding of brakes
- Plastic cup collects discharged brake fluid
- Includes 3 adaptors to fit most applications

T71658 One Man Brake Bleeder

- Service brake
- Plastic bottle collects discharged fluid
- Powerful magnet attaches bottle to car
- Deluxe kit includes hoses and tapered fittings

T71664 Brake Bleeder Hose

- One man
- Neoprene hose with steel coupling

T71699 Disk Brake Caliper Star Bit Sockets

- Heat-treated

- Removes and installs brake caliper mounting bolts on Ford and GM cars

T71686 T40, T45, T50 - 3pc Ford set

T71558 Brake Drum Resetting Gauge
 • Measu

- Outside calipers transfer measurement to brake shoes
- Inside calipers measure drum diameter
- Locking nut holds gauge reading

T71785 Brake Cylinder Hone
 • Flexibl

- Knurled nut controls honing tension
- 27/32" through 2" range

T71791 Brake Cylinder Hone
 • Flexibl

- Knurled nut controls honing tension
- 3/4" through 2-1/2" range

T71797 Brake Cylinder Hone
 • Flexibl

- Knurled nut controls honing tension
- 1-1/4" through 3-1/2" range

T71803 Brake Cylinder Hone
 • Flexibl

- Knurled nut controls honing tension
- 11/16" through 2-1/2" range

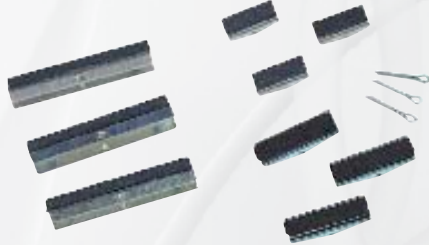

T71815 Brake Cylinder Hone
 • Flexibl

- Knurled nut controls honing tension
- 7/8" through 1-1/4" range

T71816 3pc Replacement Medium Stone Set

T71792 Replacement Stones for Cylinder Honing

- T71792** 3pc 1-1/8" Replacement Medium Stone Set
- T71793** 3pc 1-1/8" Replacement Fine Stone Set
- T71794** 3pc 1-1/8" Replacement Coarse Stone Set
- T71798** 3pc 2" Replacement Medium Stone Set
- T71799** 3pc 2" Replacement Fine Stone Set
- T71800** 3pc 2" Replacement Coarse Stone Set
- T71804** 2pc 1-1/8" Replacement Medium Stone Set
- T71805** 2pc 1-1/8" Replacement Fine Stone Set
- T71806** 2pc 1-1/8" Replacement Coarse Stone Set
- T71807** 3pc 3/4" Replacement Medium Stone Set

T71921 Disc Brake Piston Remover

- **Removes** piston from caliper cylinder
- Rotates piston back into caliper cylinder
- Use on most imports, Ford, Chrysler and GM cars with four wheel disc brakes
- Use with 3/8" Dr. ratchet

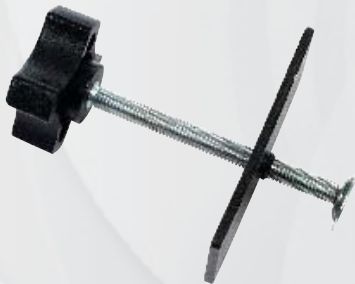

T71893 Universal Bearing Packer

- **Evenly** packs grease into bearing
- Fits many rollers and ball bearings
- Works with most car, boat, trailer and RV bearings

T71899 Disk Brake Pad Spreader

- **Easily** compresses disc brake piston
- Compresses disc brake piston for fast installation

T71900 Disc Brake Pad Spreader

- **Easily** compresses disc brake piston
- Compresses disc brake piston for fast installation

T75867 Brake Cylinder Retainer Remover

- **Removes** retainer ring
- For GM "J" and "X" body cars

T71917 Brake Spring Washer Tool

- **Removes** washers
- Use on both large and small washers

T71945 Disk Brake Lining Wear Gauge

- Measures (1/16" to 5/8")
- Checks disk brakes without removing calipers

T75807 Disc Brake Dust Boot Installer

- Distributes
- Seals out water without damaging boot or ring
- 5 sized drive designed for high impact
- Applications: GM, Chrysler, and some import vehicles with drive-in boots

T75805 Rear Disc Brake Caliper Tool Set

This tool

winding the piston back into the caliper through the convenient T-bar rotation. Piston retraction is smoothly completed without damaging the piston or boot. Its 9 adaptors can be used on both 2 and 4 wheel disc brakes.

Applications:

Audi, BMW, Ford, GM, Honda, Mazda, Mercedes, Mitsubishi, Nissan, Rover, Subaru, Toyota, Volkswagen, and most 4WD vehicles

T75808 Air Brake Service Set

Includes

- Brake clevis pin press
 - Manual slack adjuster puller
 - Automatic slack adjuster puller
- Designed to easily remove air brake push rod clevis pins and

S-cam air brake manual and automatic slack adjusters in no time. Operates on class 7 and 8 tractor and trailer brake systems. Uses effective screw power to apply force directly upon the object to be removed. The manual slack adjuster puller fits all manual types while automatic slack adjuster puller fits automatic types of Rockwell, Haldex, Gunnite, and Bendix air brake systems.

T75550 ABS Brake Pressure Test Kit

Tests

New

assembly

- Allows for balance testing to ensure pressure is being equally applied to front and rear wheels
- Kit consists of 22pc adaptors and reference table

T75816 Vacuum Pump / Brake Bleeding Set
Includes

- Vacuum pump
 - Die cast metal pump with fluid resistant valves
 - Easy-to-read gauge (inches & millimeters)
 - Brake bleeding kit
- Everything you need to test cooling system temperature ranges,

leaks, and sensors. Pump's valves are resistant to most automotive fluids. Approximately pumps 1 cubic inch per stroke and holds about 25 inches of mercury vacuum. Gauge can be read easily by both right and left handed person.

T75831 2-Way Vacuum Pump and Brake Bleeding

New

Kit

Includes:

- 2-Way vacuum pump for both in and out flows
- Fluid resistant valve pump
- Gauge
- Brake bleeding kit

- Tests cooling system temperature ranges, leaks, and sensors
- Pump's valve resists most automotive fluids
- Provides both in and out flows for versatile applications

T75877 Open Disc Brake Service Tool Set
• Compl

New

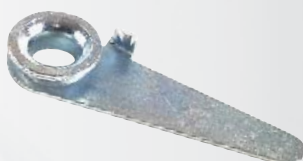

adjusts brake shoes, retaining rings, and installs and removes brake caliper mounting bolts

Contents:

- T71578 - Brake Adjustment Tool
- T71610 - Brake Spring Compressor
- T71614 - Brake Spring Pliers
- T71900 - Disc Brake Pad Separator
- T71921 - Disc Brake Piston Remover
- T71682 - 3/8" Dr. T40 Disc Brake Caliper Star Socket
- T71683 - 3/8" Dr. T45 Disc Brake Caliper Star Socket
- T71684 - 3/8" Dr. T50 Disc Brake Caliper Star Socket
- T75867 - Brake Cylinder Retainer Remover

Tube Bender

- Bends aluminum, brass, and copper
- Perfect for automotive, plumbing, and refrigeration work

T70742
Capacity: Up to 1/4"

T70743
Up to 5/16"

T70745
Up to 1/2"

T70748 Heavy Duty Tube Bender

• Heavy

- Four groove design to fit popular tube sizes: 3/16", 1/4", 5/16", and 3/8" O.D.

T70750 Tube Bender

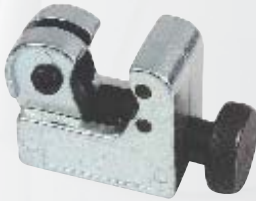

• Bends

- and steel tubes without kinking or collapsing
- Includes roller adaptors for each tube size for smooth bends

T70755 Tube Cutter

• Cuts tu

- Mini-tube cutter works in especially tight conditions
- Consistently makes accurate cuts

T70756 Tube Cutter

• Cuts tu

- SUJ-II blades for extra strength
- Consistently makes accurate cuts

T70765 Heavy Duty Tube Cutter

• Scribe

- Cuts tubes from 1/8" to 1-1/8"
- Ideal for copper, brass, and aluminum cutting
- Heat-treated, tapered shank

T70766 Tube Cutter

• Cuts u

- Extra wide wheels keep cutter from spiralling
- Includes extra wheel under pivoting reamer blade
- Cuts tubing up to 1-1/8" O.D.

T73360 Double Flaring Tool Set - SAE

• Heavy

- Use to double flare soft steel tubes and single flare soft brass, copper, and aluminum
- Includes drop forged yoke and seven double flare adaptors
- SAE: 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8"

T73361 Metric: 1/4", 1/2", 4.75, 5, 6, 8, and 10mm

T75756 Double Flaring Tool and Tube Cutter Set
This tool

flare soft copper, aluminum, and brass tubes of variable sizes. The die holding block is capable of being used with 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", and 7/8" outer diameter tubes. Yoke type compressor features a convenient T-bar rotation that allows firm grip for powerful winding. Flaring cone pushes down on the die block for an effective compression to create a precise automotive 45-degree flare. Tube cutter features two wide rollers for smooth cutting. An additional retractable locking reamer blade and cutter wheel are located under the reamer blade. Outside diameter capacity is 1/8" to 1-1/8".

T75901 Flaring Tool Set
This tool

soft copper, aluminum, and brass tubing of variable sizes. The die holding block is capable of being used with 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8" and 3/4" outer diameter tubes. Yoke type compressor features a convenient T-bar rotation that allows firm grip for powerful winding. Flaring cone pushes down on the die block for an effective compression to create a precise automotive 45-degree flare. The set's five spreaders enable the swaging of 3/16", 1/4", 5/16", 3/8", 1/2", 5/8", and 3/4" outer diameter tubes.

T75824 Tube Cutter / Flaring Tool Set
Flares w

found in GM and other vehicles. The die holding block operates with 3/16", 1/4", 5/16", 3/8", 1/2", and 5/8" outer diameter tubes. Yoke type compressor features a convenient rotating T-bar handle that allows for a firm grip for powerful winding. Flaring cone pushes down on die block for an effective compression to create a precise automotive 45-degree flare. In soft copper and aluminum tubes it can create single or double flares. Tube cutter features 2 wide rollers for smooth cutting operation and can handle tubes from 1/8" to 1-1/8" in diameter.

Flare Nut Wrenches

- For tube fitting applications in automotive, refrigeration, and trucks
- Extra thick double-end design avoids damage to flare nuts and metal fittings

T73383 3pc Set (SAE) **T73387** 3pc Set (Metric)

T73384 3/8" x 7/16" **T73388** 10 x 12mm

T73385 1/2" x 9/16" **T73389** 13 x 14mm

T73386 5/8" x 11/16" **T73390** 15 x 17mm
